THE LOYAL LAND COMPANY CHANCERY SUIT

Researched by Katherine Bushman

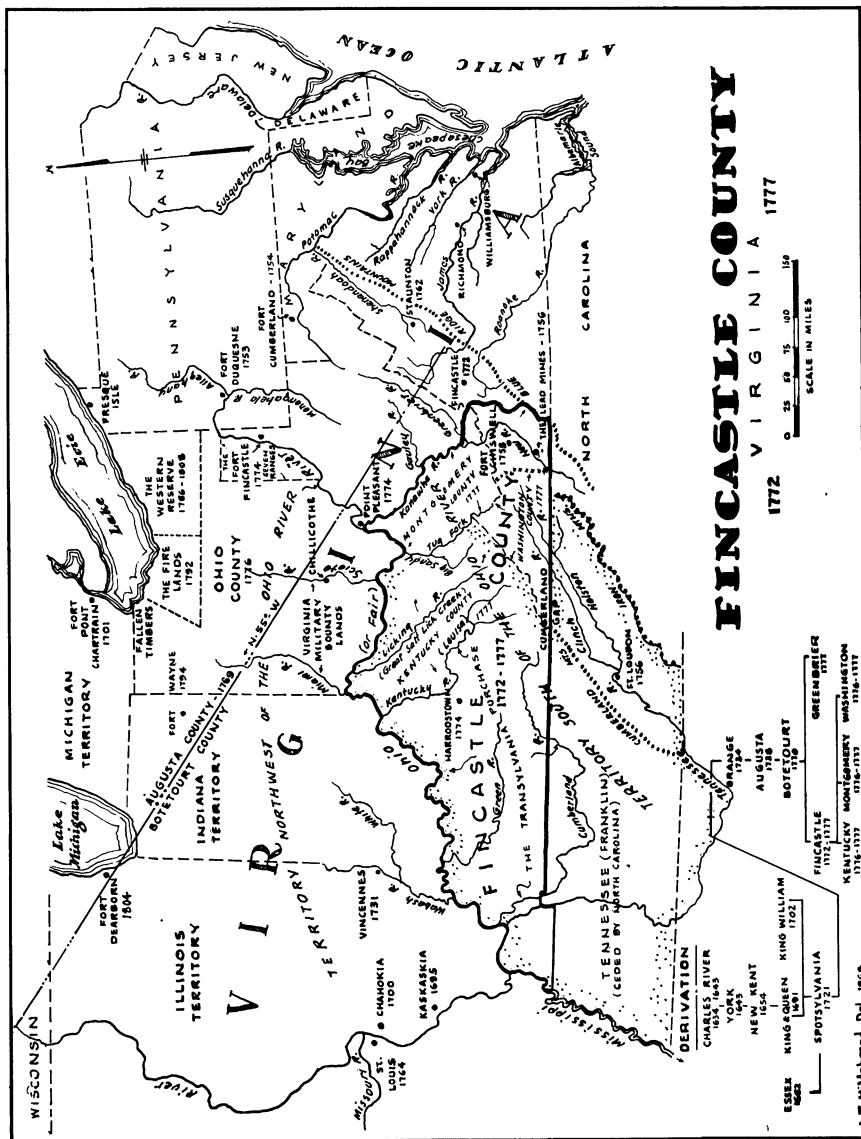

An exciting "find" among the unrecognized Augusta County records is Chancery Suit N.S.183: Loyal Land Company Succesors vs. the French 1842. This suit dating back to 1783, contains the lists of purchasers of land in Southwest Virginia from the Loyal Land Company and also contains a list of people in that area in (approximately) 1783. The Bill is a history of this Company from its creation by order of the Council of the Colony of Virginia under date of July 12, 1749. The land cost 10 cents per acre (3 pounds per 100 acres) A surveyor's fee of 10.42 per each survey; a composition fee of 2.22 per hundred acres and a patent fee of 1.77 on issuance of the patents.

The suit gives no dates of purchase. The numbers of purchasers for speculation is not known. There are several lists indicating that they represent various years. There are some 973 names — all spelled as they appear on the court records. It is interesting to note that the Greenbrier Land Company records are also included. Listed are the names of purchasers with the number of acres following.

EXHIBIT

We the Subscribers being each for himself a purchaser of land under the Loyall Company Grant, Do hereby certify That we are not only willing but desirous and fully content to hold the same on the moderate Terms of three pounds per hundred acres, agreeable to our original contract with Thomas Walker Esquire Agent for said Company, especially as his conduct towards the settlers has been just and uniform; rather than pay a higher price or come under any new agreement or regulation respecting said lands, which have been generally surveyed to our liking and we are in possession thereof, some for a great many years past. We further Certify that we do not know or believe that the above terms have been any hindrance or obstruction to the settlement of the country, but the reverse which is manifest from the great increase of inhabitants on the Western Waters since the year 1765, although in that time they have been frequently harrassed by, and several times at war with the neighbouring Nations of Indians; and thereby exposed to great trouble, loss and danger. We therefore hope that our titles will be made and that we may without further trouble be secure in the quiet possession of our lands, from whence we have drawn support for our families by our labour and industry, and very often at the risk of our Lives—This as subjects of the state we think ourselves justly entitled to, and the rather as it is our own earnest request.
